Jacquard Velvet

CHRISTIAN FISCHBACHER

14518 803

The easy-care VEGAS velvet jacquard is one of the most technically demanding upholstery and décor fabrics within the CASTRO collection.

Between two layers of fabric that form the basic structure, there is a second warp thread woven into V-shaped loops. These are cut through the middle to leave two lengths of velvet.

The flexible, all-over design takes effect with raised polka dots that combine across the surface of the fabric to form larger shapes.

They appear to shimmer, thanks to a glossy PES yarn used that reflects the light. With its uncomplicated elegance and small-scale pattern repeat, VEGAS is suitable for use in any setting.

LEATHERS

Leather hides used for upholstering furniture will exhibit non-uniform surface qualities, depending on the area of the hide from which they were cut. Even pigment-dyed buffed and embossed leather obscure some of these natural texture characteristics. Variations in texture are not flaws and will not affect the leather's durability. Common surface variations include scratches, wrinkles and healed scars. A sample should never be considered as an exact snapshot of the entire hide. A dye variation along with variation in texture can be found throughout the hide of some leathers, resulting in large grain near the edge and smaller grain in the center.
